

FIBA Certified Level 1 Portable Backstops

When the big boys want to play NBL Basketball, you need to wheel out the real backstops.

The Sports can supply a comprehensive range of Top Level FIBA Certified Level One Basketball backstops. These systems are tested and approved by the international governing body in Switzerland to be used in all Top Level FIBA Level One and Two competitions including Test Match international levels.

A range of systems are available from the major international manufacturers and available with a range of options. All systems come complete with the required protective safety backboard padding, 180 degree pivot spring loaded ring, armoured glass backboard and height adjustable.

Spring assisted, hydraulic and electric systems are available. These units fold up compactly for storage, then can be wheeled out onto the court, locked into position, tied down to the floor anchor and unfolded ready for play by one person in minutes.

Systems are supplied with a certificate of international approval, and different designs can be configured to suit almost any facility.

Other FIBA required systems like Padding, Scoreboards, Scoring Benches and Shotclocks also available.

Other smaller systems available for FIBA Level Two, Club, Stadium and School levels.

Current as of Feb 2011
