

Instant Multisport Goal

The newly released iGoal (version 2.0), the international revolution in portable goals is finally available down under, complete with new upgrades to the original design.

This innovative British product is designed to be safe, compact and easy to install. Tested to demanding British standards and complying with the British FA requirements, the iGoal design solves all the problems traditionally associated with portable goals.

- Carry it around in a backpack. Fits in the boot of a car, or on your back while you bike.
- Inflate or deflate the goal in less than a minute with supplied pump.
- Nets are included, and already attached ready for action on the new safety net hooks.
- Light enough for kids to handle. Safe enough to use without pads.
- Ground anchors are included for stability.
- Withstands full force kicks thanks to the increased rigidity from the new wall construction
- Take it anywhere, anytime and onto any surface. Beach, grass, indoor or out.
- Perfect for practice, PE classes or small sided games competitions

Available in a range of size, including $1.8 \times 1.2 \text{ m}$ (mini), $3 \times 2 \text{ m}$ (Futsal), $5 \times 2 \text{ m}$ (Youth) and full size Competition.

Revised 27.11.10
