

ACTION EXCEL NR

Action Excel NR

This floating resilient system utilizes factory precision assembled panels with natural rubber pads. The Excel offers the advantage of an affordable non-anchored plywood subfloor that is certified to the highest athletic standards. This floor system is highly resilient, has uniform playability and consistent shock absorption to enhance safety for athletes. Action's Excel NR Floor System is an excellent choice for gymnasiums, multipurpose, indoor running, dance floors and aerobic projects.

EN & DIN Certified
