

PROACTION THRUST

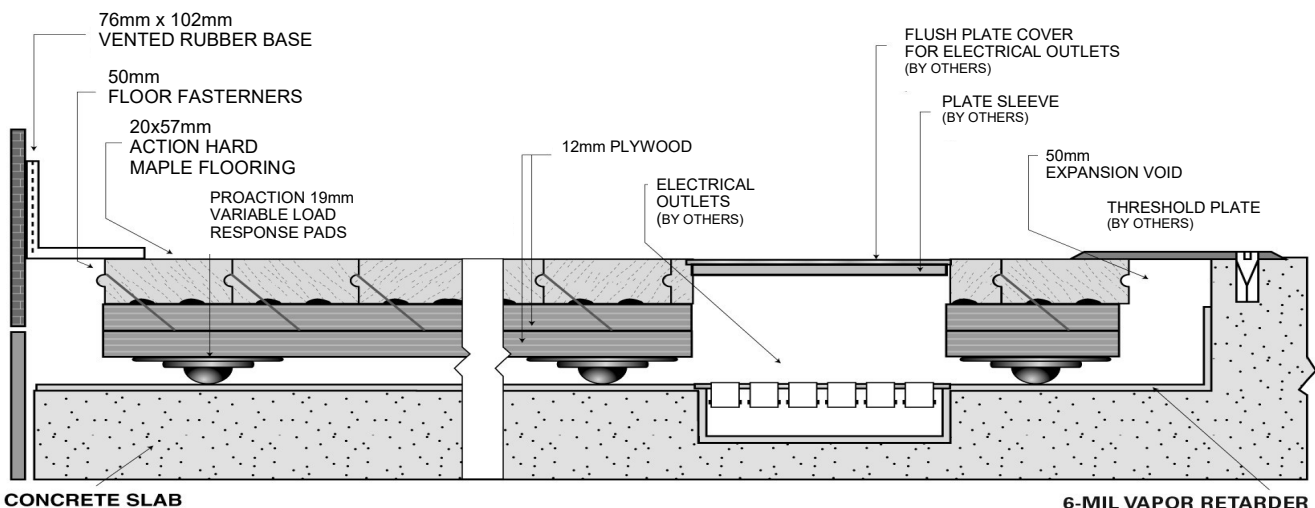

PROACTION THRUST

Superior ball bounce! ProAction Thrust is an ideal choice for high-performance applications, such as a premium basketball floor. Features dual-durometer ProAction pads.

EN and FIBA CERTIFIED - LEVEL ONE

ProAction Thrust

09/09

This floating resilient system provides uniform performance and great ball response. The ProAction Thrust floor system combines 50 ProAction variable load response natural rubber pads per 2.88m², two layers of plywood and 20mm thick maple flooring. The ProAction Thrust Floor System is an excellent choice for high performance sports halls.
