

ESSENTIALS

SIDE FOLD BASKETBALL

Our Essentials Basketball range provides a cost-effective system based on FIBA certified international level designs used in big stadiums more suited for use in venues where a top line product is not required.

- FIBA level 3 certified.
- Designed for use in schools, and recreational or community centres.
- Engineered to allow flexibility in installation and a quality product at a lower cost.
- Sideways folding operation with offset hinges for flatter storage.
- Adjustable projection up to 3600 mm on standard system
- 6 connection points to the wall, including 4 steel arms for maximum stability.
- Includes a full size 50 mm thick reinforced Fibreline backboard (not timber) for improved ball rebound and strength.
- Direct mount goal connection to structural centre mast for ultimate strength.

Upgrades can include spring loaded rings, backboard padding, height adjustment systems, and electric actuation enabling automatic folding via key switch.

Systems are designed to mount to a 150 SHS member or can be attached to a concrete wall if required. Custom made configurations can be supplied but additional costs and longer lead times apply.
