

JAM BASKETBALL SYSTEM

A premium basketball backstop perfect for home and primary school use. This system is robust, adjusts in height and has the optional upgrade to add a netball ring for a double use post.

- Backboard includes target square and lines so you can “play like the pros”.
- Optional netball ring for reversible operation.
- 1200 x 900mm transparent backboard.
- Variable height 3050-2600mm.
- 90mm heavy duty steel upright.
- Supplied with ground sleeve as standard.
- Powder coated finish.
- Specially formed arms for maximum strength.
- 630mm clearance between post and backboard at full height.
- Flat pack design for ease of transport and lower cost outlay.

Full size backboard and safety padding kit upgrades available on request.
