

STADIA

SIDE FOLD BASKETBALL

The most advanced wall mounted Basketball systems available in the South Pacific, the Stadia range of structures are custom made, tested and certified for International FIBA Level Three Basketball competition, Education QLD State Schools Basketball Specifications and Australian Design Standards.

- FIBA Level 3 Certified.
- Armour glass backboard with lifetime warranty.
- Supplied with protective backboard padding.
- Designed for optimum rigidity and stability.
- Fully welded frame design with supporting braces to reduce movement while in play.
- Box frame arm design reduces torsion on the hinge points and increases stability.
- 6 connection points to wall on systems up to 3.6m (FIBA Level 3 certification). 8 connection points to wall on systems from 3.6m to 4.5m (This elevates the system to FIBA Level 2).
- High quality positive locking spring goal to FIBA regulations with tube net tie connection.

Upgrades can include 180° rings, height adjustment systems, and electric actuation enabling automatic folding in and out via key switch.

Systems are designed to mount to a 150 SHS member, or can be attached to a concrete wall if required.

Custom made configurations can be supplied but longer lead times apply.
